NAZI WAR CRIMES DISCLOSURE ACT
DATE 2007

SEP 4 1951

885 CWDAG

SUBJECT: JETROIL - Covert Operations within JETRADE

TO: Chief, ZACactus

INFO: Chief, ZACactus

REFERENCE: WASH 00278 and WASH 02994

1. Project JETROIL and its budget were approved on 2 August 1951. It is similar to QNSTAIN, and its objectives are: to establish a clandestine underground in JETRADE; to carry on psychological, political, and economic warfare; and to hamper any FOSTAL/BOGALAN aggressive moves.

2. Although efforts to establish a national council or committee under JETROIL are continuing, we have not yet been successful in organizing a political front committee.

3. Plans for implementation of this project are submitted below for your information and comment:

a. On approximately 15 September 1951, Identities (A) and (B), JETRADES, chief and script writer of the broadcast unit of the psychological warfare staff, are scheduled to leave for ZENWORTH on a recruiting trip. It is expected that eight to ten men for the broadcast unit will be recruited and dispatched, after clearance, to LODRINK by air. On approximately 20 September, Identity (C), JETRADE announcer of the broadcast staff, will leave directly for LODRINK.

b. A cadre of six men, probably Identities (D) through (H), will be ready to leave for the field on or about 30 September to launch the field operational phases of the project and assist in training the first twenty agents. Identity (D) is senior training officer; (E), (F), and (G), operations officers; and (H), the JETRADE commo man. The senior operations officer, Identity (I), will leave for ZENWORTH on 10 September to recruit the initial twenty agents who will be trained for infiltration this year.

c. Sufficient arms

e. Sufficient arms will be available immediately for the initial phase from QKSTAIR and BOFIEND stocks. Additional material for 2,000 men will be drawn from SGCILEN or ZKSLISS stockpiles and shipped to LADRINK or other suitable storage areas as soon as available.

4. ☐ ☐ departed for ZKWOORTH on 20 August 1951 and will be able to supply general information on Project QKBROIL preliminary plans upon his arrival in LADRINK.

5. It is believed that for geographical and political considerations, the logical cold-war base for the QKBROIL field headquarters is QKQUAVA and that the propaganda element should be transferred to XNJUNCO too as soon as radio transmitting facilities can be established there, since as yet, the QKQUAVA area is not as saturated with ZACACTUS personnel as some others. Any comments you may wish to make on this subject will be appreciated.
